As God's Support Orphanage Ministry, we have been conducting awareness to the children the dangers of illiteracy and the benefits of being educated within the community. In addition to that we have given scholastic materials like pencils, pens, books and school uniforms to all the orphans that help them study well.

Household economic strengthening Program

Household economic strengthening interventions are aimed at reducing families' vulnerability to poverty. Our organization executes a number of activities planned under three broad themes which include Apprenticeship, Cottage, and Agro-enterprise. Apprenticeship skills training increases youth employability and opportunities to establish livelihoods for the households. Agro-enterprise activities contribute nutritious foods, reduce the expenditure on food items and provide access to finances to the households through the sale of the surplus. Cottage training increases business venture startup opportunities. The acquisition of economic strengthening skills is essential in helping households meet household expenses, improve nutrition, reduce the cost on food items, and build resilience to household shocks.

Girl Child education program

Girl-children access to education is still a challenge in Uganda as thousands fail to enrol in primary and secondary education. Education has been qualified as one of the primary drivers of development and a critical tool for gender equality promotion, health well-being, and reducing poverty. Some of the barriers to girl-children education include costs of education, poverty, patriarchal gender norms, early marriage, and pregnancy. Investing in girls' education transforms communities, countries, and the entire world. In our Girl Child education program, disadvantaged girls are supported to enroll and complete primary education as well as secondary education by providing them with the necessary school fees, scholastic materials, and personal utilities.
